

Dear FCC and who it may concern,

I believe that it is essential to the continued growth of our country to uphold and strongly support net neutrality backed by Title 2 oversight of ISPs. Net neutrality is important to us as Americans, and is important to the growth of the minds of those Americans who can't necessarily afford other forms of education. Net neutrality is information neutrality, and I don't want to live in a country in which we aren't free to share our ideas as such. Net neutrality has become an essential part of the freedom of speech, and I think we all need to protect it going forward if we are to continue to uphold the values of our founding fathers. Please, reconsider, follow the voice of the people.

Best regards,

Zachariah Gamble
